IEEE-SA Solutions Update

Issues reported March 1, 2017– June 30, 2018

- Grouper
 - 15 requests for various services including private areas, mailing lists/archives, access permissions
 - Outage on Jun 18 (approx. 2 hrs.) Routine patching caused some issues which made the site inaccessible. The issue was investigated and resolved promptly.
- Join.Me - 420 C/LM group meetings held (March-June)
 - 3 connected devices per meeting average
- myProject/IMAT/Mentor
 - Implemented Privacy Policy checkbox and cookie policy banner on Grouper pages and those groups with Word Press (802.1)
 - Mentor WebDAV interface is currently not functional. We are working to fix this as soon as possible.
- iMeet Central (No issues reported)
- Public Review (No issues reported)
