Central Desktop Online Collaboration Tool

Christina Boyce Gregory Marchini solutions-support@standards.ieee.org

IEEE STANDARDS ASSOCIATION

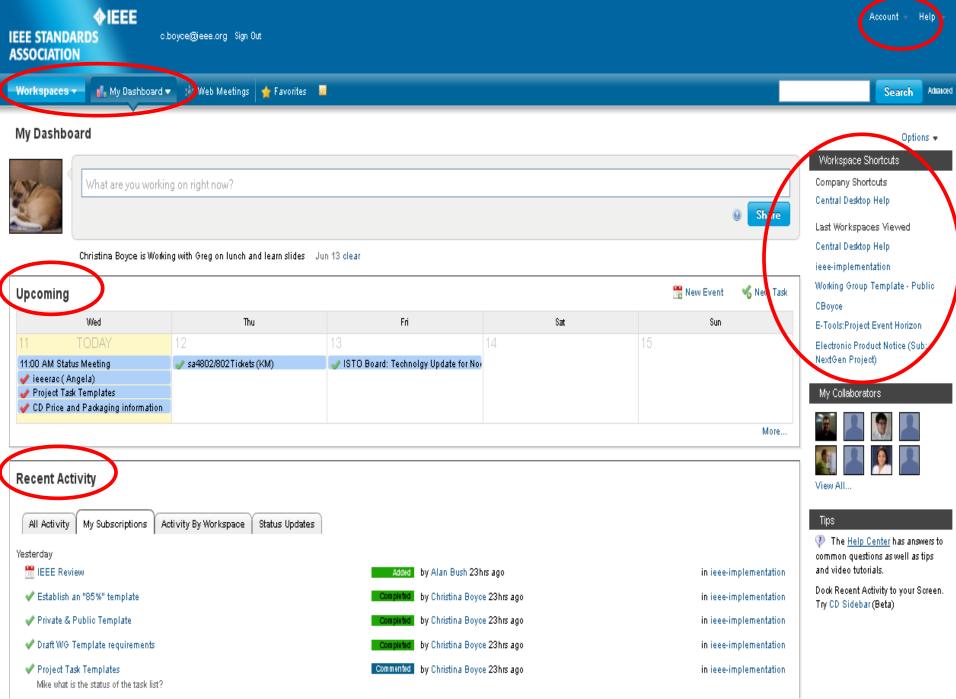

Introducing Central Desktop!

- The SA is making available Central Desktop to working groups for standard development, Industry Connection groups, Professional Services Groups and other adhocs.
- A robust, cohesive and feature rich collaboration space
- Central Desktop has won a few awards in this area <u>http://www.centraldesktop.com/about-press</u>, they have an excellent reputation in collaboration and social networking.
- Excellent team of support specialists, training documentation, user forums, and "ideasphere" (<u>https://ideasphere.uservoice.com/forums/118481-ideasphere</u>) which allows users to submit and vote on enhancement ideas.
- Also provides features that are not available in our current tools:
 - Mobile applications
 - Browser, Outlook and MS Word Plug ins
 - Document editing and sharing
 - API support

IEEE STANDARDS ASSOCIATION

Additional....

- Administrator Access Provides:
 - Usage Reports
 - Modify Workspace settings
 - Modify Look and Feel
 - Custom Tabs
 - Customized views
- Additional Functionality
 - Wiki
 - Public and Private Workspace
 - API support
 - Mobile (Android, iOS) applications
 - Browser, Outlook and MS Word Plug ins
 - Databases (create and mange custom lists)

Benefits of using Central Desktop

Consolidation

- All group activity, communications, and files are available in one central location
- Search
 - All documents and communication are searchable. Files, discussions and tasks can be tagged to easily find content related to particular keywords.
- Archival
 - Previous versions of documents, old discussions, and completed tasks can be archived inside the collaboration tool. This means that they are hidden, but can be brought back and referenced if necessary.
